

Battle River School Division

International Student Program

School Information

Battle River School Division

Battle River receives international students from over 10 different countries. We believe that promoting and fostering global citizenship is an important component in a well rounded education and we believe that students from other countries bring richness and diversity to our schools.

Battle River has a small international program, hosting between 30-50 students per year. Our smaller numbers allow us to create personalized programming for our students. Students get many supports from the school and the community.

Our larger and smaller communities are very safe and provide a truly authentic Canadian experience. English develops quickly as the only language spoken in schools and communities is English.

We would love to have students from many countries come to study with us in Battle River! We believe that we can provide a high quality experience in a supportive environment where students will develop lifelong friendships.

Battle River School Division

Every school in Battle River School Division offers a full academic program with all academic subjects.

Each school offers a range of different option courses.

Every school is equipped with high speed wireless internet and students have access to computers, laptops and Chromebooks.

Every classroom is equipped with a Smartboard.

All schools are enthusiastic about receiving and hosting international students and the entire school community welcomes them with open arms.

Homestays are with families that are very active and who have a sincere desire to learn about other cultures.

Students will be able to experience many different activities in a very safe environment.

Battle River School Division

With our small international program, there are many of our smaller rural schools that have no international students currently.

They are eager to welcome new international students to their schools.

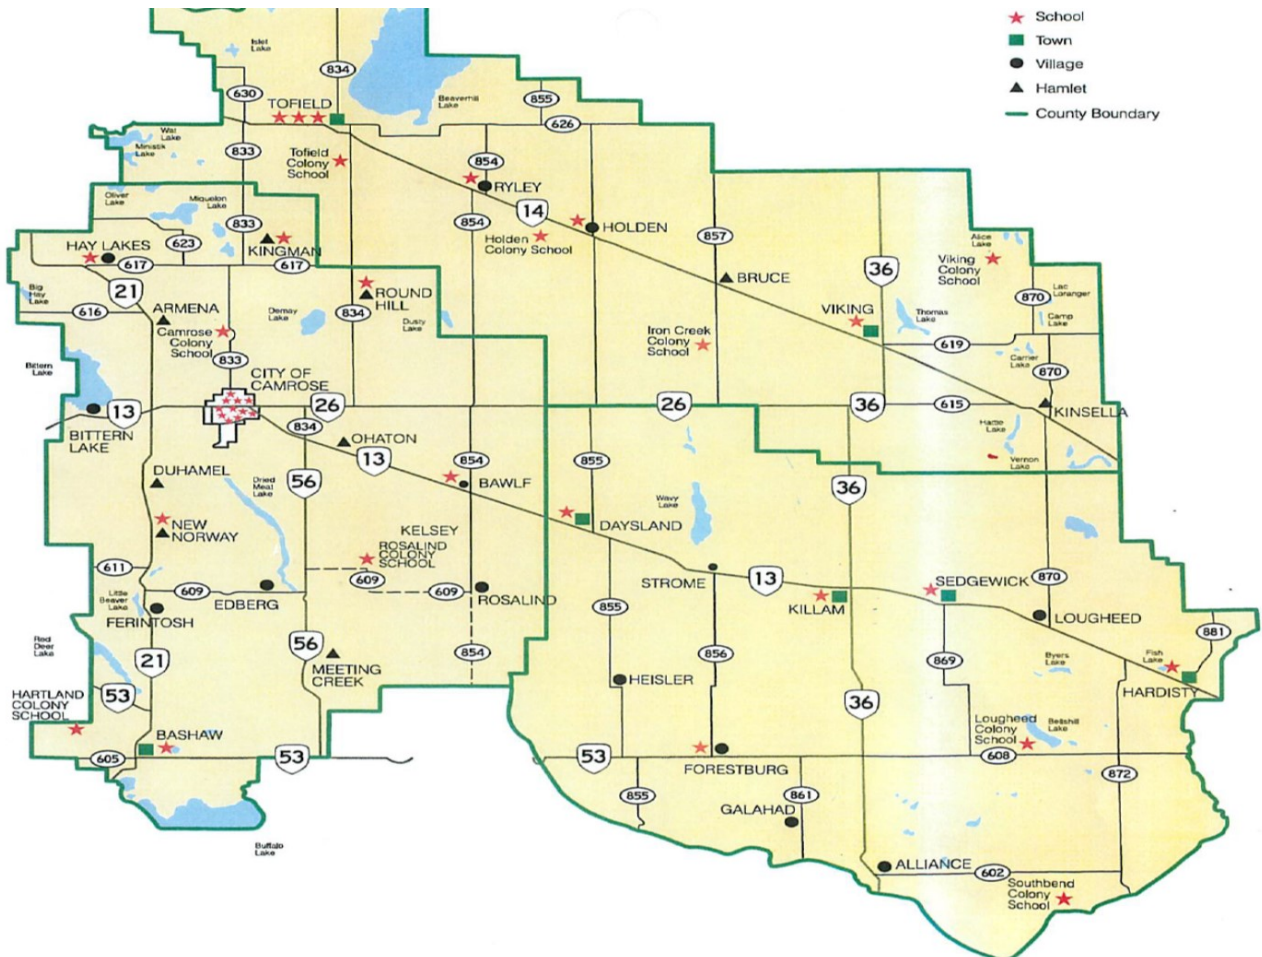

There are 3 of our rural schools that have 1-2 international students per year. Many more rural schools would love to host an international student.

Our largest school has approximately 23 international students. This is a mix of students from Spain, Japan, South Korea, Belgium, Mexico, Brazil, Chile and Thailand.

Many of our schools have students who are various nationalities who have immigrated to the area with their families. These students would make up approximately 5-7% of the school district's student population.

Battle River School Division

MAP
